#### **SERVICE PARK\_1 GPS**

The Service Parc will be locked outside the opening times. It is possible to stay in the Service Park overnight, in the team's motorhomes, but it will not be possible to leave the closed Service Park. Any additional space requirements in the service area, on top of the standard allocation must be requested from the organiser in advance.

### **Zero cars, supporting events participants**

The organiser will provide precise information on the final designation of the service area and service location of the participants after the closing date for entries. The organiser would like to draw the attention of the teams concerned to the fact that, in the event of a large number of entrants, it may not be possible to provide the teams concerned with a shared service area for the teams entering the championships and the teams competing in the championship fields. Please allow for this when making your service plans.

In case of saturation of the internal service area, the organiser will allocate additional service spaces in the Expo Center's external car park. Service teams are reminded that the outside car park is a gravel/ pebbled surface, so it is recommended to prepare extra solid support material (e.g. a suitably shaped wooden tool) for lifting cars.

See Annex 3 for further details.

### **ORB2, ORB3**

The organiser of the 56th Mecsek Rallye draws the attention of the entrants and safety cars of the ORB2 and ORB3 championships that due to the construction works affecting the internal road network of Pécs MJV, the service park of the entrants and participants of the ORB2 and ORB3 championships will be located in a separate area from the Expo Center, in the parking lot of Pécs Plaza. This excludes the possibility for the ORB2, ORB3 teams to set up a service point together with the competitors of the EHRC-Historic-ORB-ORC teams.

In order to support the service activities of ORB2 and ORB3 teams, the organiser will issue, in addition to the "normal" service stickers, an additional "SERVICE PLUS" service sticker, which can only be requested by ORB2 and ORB entrants and which allows access to the areas of Service Park\_1 and Service Park\_2, i.e. entry, exit and re-entry, for the entire duration of the race.

The organiser would like to ask the teams and competitors concerned to take the above into account when drawing up their service plans.

We ask for the understanding of all concerned and thank you for your cooperation.

Attention! All forestry barriers will be closed by the organizers at the end of the specified time of the course entry, and therefore the pairs of competitors participating in the course entry must leave the stages concerned by the closing times specified above.

- SS1,4 [Mandulás] full stage - no restrictions, the whole stage is a road stage.
- SS2,5 [Alsómocsolád] the second part of the stage (7,80-14,10km) is a road stage with no restrictions.
- SS3,6 [Komló] whole section - no restrictions, the whole section is a road section.
- SS7,10 [Árpádtető] full section - no restrictions, the whole section is a road section.
- SS8,11 [Mecsekpölöske] the first part of the section (0,00-7,10km) is a road section with no restrictions.
- SS9,12 [Hetvehely] the first part of the section (0.00-6.50km) is a road section with no restrictions.

Access to the speed sections on public roads is not restricted by the organiser, but compliance with the relevant national traffic regulations is compulsory at all times.

A maximum of 4 passages on the above-mentioned sections of the Forest Farm Road will be permitted during the course of the event. On the private and forestry sections, if there are no other speed restrictions in force, the maximum speed allowed during the race is 80 km/h.

The organiser recommends that, when drawing up the route plan, the teams should take into account the fact that the one-way forestry section between Alsómocsolád and Kisvaszar can only be re-crossed by a road section of approximately 25 km (approximately 30 minutes).

- The ceremonial sites can be accessed on foot only, without any time limit.
- The relevant traffic regulations and restrictions on private roads and forest roads must be observed throughout the entire route.

### Safety cars, zero cars and other associated participants

The organiser will provide precise information on the final designation of the service areas and service locations of the participants after the closing date for entries. The organiser would like to point out to the teams concerned that in case of a high number of entrants, it may not be possible to provide the teams concerned with a shared service area with the teams competing in the EHRC+Historic and Rally1 fields for the pre-runner and safety cars and the teams involved in the insert programmes. Please take this option into account when making your service plan.

In case of saturation of the inner areas of the service parks, the organiser will allocate additional service facilities in other areas. Service teams are reminded that in such cases, there may be a possibility of a gravel/pebble area being designated, so it is recommended to prepare extra solid support material (e.g. a suitably shaped wooden tool) to lift the cars.

- a) **If a service vehicle over 7.5 tonnes does not arrive on the announced date, it is not possible to provide the designated area!**
  - b) Service vehicles may be left overnight in the service park. The organiser will have the area checked by a security service, but will not be liable for any valuables left inside.
  - c) **The rules for the service parks are set out in the FIA General Rules, the maximum speed limit for all vehicles within the service park is 20 km/h.** All personnel (service, assistance, refuelling zone, team leader vehicles) belonging to the teams must comply unconditionally with the rules of the rally and the instructions of the officials. The entrant shall be responsible for the conduct of all such personnel throughout the duration of the rally. The above vehicles are not official participants in the competition even if they carry the "SERVICE" etc. sticker issued by the organiser. They are not covered by the compulsory third party liability insurance and are the sole responsibility of the operator and driver of the vehicle.
  - d) **NO PARKING OF TRAILERS OR CARS IN THE SERVICE PARK! The organiser will punish any entrant who breaks this rule:**
    - for the first time: will be warned and asked to leave the service park,
    - second time: the organiser will fine the entrant € 500 (Euro).
- A separate trailer parking area will be provided for the transport vehicles during the event..**
